SUMMARY

Recent Information Technology graduate with a strong interest in technology and software development. I am eager to begin my career by learning about your company’s work, culture, and approach to solving problems. My goal is to contribute meaningfully while gaining experience and growing alongside your team in a collaborative environment.

TECHNICAL SKILLS

Frontend: React.js, Vue.js, TypeScript, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, PHP
Databases: PostgreSQL, Firebase (Firestore, Authentication)
Tools & Others: Git, REST APIs, RBAC, SMTP Integration

EXPERIENCE

Full Stack Developer

Kwanii – Cremation Management System

Feb 2026 – March 2026

- Developed responsive and dynamic user interfaces using React.js, TypeScript (TSX), and Tailwind CSS.
- Engineered backend solutions using Firebase, implementing authentication, role-based access control, and Firestore database operations.
- Synchronized real-time data and successfully integrated frontend applications with diverse backend services and APIs.

Frontend Developer

PEME – Queuing Management System

Feb 2026 – Feb 2026

- Improved system design and optimized project structure to boost overall development efficiency.
- Built responsive, user-friendly interfaces with React.js and TypeScript, integrated seamlessly with Firebase services.
- Assisted in backend development, including Role-Based Access Control (RBAC), SMTP configuration, and functionality improvements.

Programmer

Kwanii – Unity3D Chicken War Game

Dec 2025 – Jan 2026

- Collaborated in a 2-person team to prototype an existing game, focusing on scripting, game logic, and dynamic data storage.
- Designed blueprints for game assets and improved game flow by reducing user clicks.
- Conducted regular debugging to enhance overall user experience.

PROJECTS

Full Stack Developer

Capstone (1 & 2) – ERP System with DSS for Countryside Steakhouse

Feb 2025 – Nov 2025

- Full-Stack Developer on a 2-person team, building the complete application from front to back.
- Developed responsive Vue.js components for the dynamic menu and user interface, and created RESTful APIs with PostgreSQL for menu, inventory, and user data.
- Collaborated to integrate the front-end with ERP back-end processes, ensuring seamless data flow

EDUCATION

National College of Science and Technology

- Bachelor of Science in Information Technology (BSIT) **2022-2026**
- Senior High School – STEM **2020-2022**
